I am looking to obtain a challenging job working as full-stack web developer.

WORK EXPERIENCE

JANUARY 2016 – JANUARY 2019
OPERATIONS MANAGER, THE SOURCERY GAME STORE
My responsibilities included day to day operations, employee productivity, and ordering.

SUMMER 2013 – SUMMER 2015
SALES ASSOCIATE, COSTPLUS WORLD MARKET
As a sales associate I unloaded truck shipments, assisted customers, and was a cashier.

EDUCATION

EXPECTED COMPLETION IN NOVEMBER 2019
CERTIFICATE OF COMPLETION, GEORIGA TECH - CODING BOOTCAMP
During this program I learned market-driven skills needed to become a full-stack web developer. I learned front-end and back-end technologies to build complex projects with teams to simulate professional working environments. My current GPA is a 4.0.

MECHANICAL ENGINEERING, VIRGINIA COMMONWEALTH UNIVERSITY
Relevant completed course work includes Calculus 1 and 2, Differential Equations, Multivariate Calculus, and Numerical Methods where I got programming experience using MATLAB.

SKILLS

- HTML
- CSS
- Git
- Javascript
- JQuery
- D3

- AJAX
- Bootstrap
- Firebase
- Node.js
- Chart.js
- MATLAB

PROJECTS

During the Coding Bootcamp I completed numerous projects covering all the skills I have listed and developed my portfolio page where many of those projects are listed. If you are looking for more information about programing work that I have done, click the link to my portfolio above.
